Farm Adviser Not A Veterinarian (By A. W. Terrill.)

There has been a great many calls for the Adviser to treat or inspect sick stock of various kinds. Such request will have to be refused except where contagious or infectious diseases are suspected, as the Adviser would lay himself personally liable according to the laws of Missouri.

The law allows the Adviser to help in contagious and infectious diseases only. In cases needing immediate attention the Adviser will give what directions he can to aid until a veterinarian's services can be obtained, but in no other instance can he doctor or perform operations on any stock.

Filling a Fountain Pen.

When filling a fountain pen, to prevent annoyance from air bubbles, use narrow, tapering pieces of blotting paper, cut small enough to reach easily into the barrel of the pen. When touched with one of these blotter points the bubbles disappear and others do not form.

Business College Notes

Our baseball boys have received an invitation from the Eagle Stamp Company Baseball Club of St. Louis, to play one game here and return game there.

Prof. Robert Marshall, principal of the Pilot Knob Public Schools, was a visitor at the college office last Saturday.

Since the friends and newspapers of this, and adjoining counties have been mentioning Prof. Moothart as a candidate for the State Senate, a number of former students, graduates and patrons of the Moothart Schools have very kindly written him, offering their loyal support, and urging that he should make the race. He wishes to thank all of these parties very cordially and says that it is probable that he shall become a candidate, and it may be in order to say that in case he makes the race and is elected, that such will not interfere, to any extent, with the conducting of his business college, as our Legislature meets only once every two years, and the session is not supposed to last longer than seventy days, (ten weeks). In view of such, a competent assistant can be placed in charge of the school for said short time, and the general prestige that a State Senator has would be of value to the schools he represents.

Miss Pearl Hawk, stenographer in the office of Attorney General Barker, Jefferson City, has just written Prof. Moothart a very complimentary letter and urging him to make the race for the State Senator.

Secretary Vandover, of State Hospital No. 4 was an honored, interested visitor at the college office Monday.

It is in order for Prof. Moothart, in behalf of present and former students of the Moothart Business College, to thank each and every one of them very cordially, for the assistance rendered Mr. Elbert Hunt in the Voting Contest conducted by the Farmington Times. Mr. Hunt desires, also, to express to these young people, his heartfelt appreciation, and says that in case he does not come out the winner he appreciates the loyalty and interest manifested by them, just the same.

Mesdames Wm. Black and Jules Bono were interested visitors at the college one day this week. We are glad to welcome our patrons and friends, and want them to understand that they never interfere with our work. Let others show their interest by visiting our school, seeing a wide-awake, up-to-date business college in session.

Ernest Blalock is spending a few days at home this week.

In a recent letter from Bertha Smith, of Galena, Ill., we are informed that she and her sister, Pearl, have not forgotten their school days spent with us, and while yet at home, are planning to accept stenographic work in the near future.

Prof. Gossett is absent from his school work this week owing to important business affairs, and his sister Miss Louisa Gossett, is in charge of the shorthand and typewriting departments.

John Brockmiller has been absent a few days owing to an attack of tonsillitis.

The policy of Judge Swink has been to procure the very best breeding stock available and bring same into the community for the service of the stockmen here. A man doing this at all times is a man valuable to the community. Attention in another place in the columns of the Times is called to the announcement made by Mr. Swink relative to his breeding stock. Men who refuse to go to church are not Atheists. Some of them are Christians. It is not that they wish to deny God. They forget Him, they push Him aside, they neglect Him.

The stay at home seems to think that God is away off somewhere in heaven, and it is time enough to talk to Him, when we get there.

They want no mediator between them and God. They need no church.

Stock Report

National Stock Yards, Ill., March 17, 1914.—The sheep trade was very slow and backward today with values about steady for the best grades. Receipts were around 3000. A band of choice Colorado lambs topped at \$7.85 with good Westerns ranging at \$7.50 to \$7.75. Culls to fair lambs brought \$6.50 to \$7.25. Some choice, clipped lambs sold for \$6.75, a steady price but, buyers were not anxious for them as it is a bit early in the season and they are being discriminated against owing to the loss in wool. Fat ewes commanded \$5.75 to \$6 and bucks \$4.75 to \$5.25. No yearlings or aged wethers were on sale.

Hog receipts 11000. The goodly numbers the past few days has rather placed buyers temporarily on "easy street" and trade has lacked the keenness of recent sessions. Today's market was slow at steady to shade lower values; top \$8.82 1/2.

Cattle receipts 4000. The fat steer market has slumped fully 25c since last week's close. Trade for butcher cattle shows little change.

Dies of Menstruous Croup

An effort is being made to get in touch with him to inform him of the death of the little girl. At the hour of closing our forms no arrangement had been made for the funeral.

Celebrates Ninety-Fourth Birthday

Last Sunday with its sunshine and gladness brought particular joy to the home of relatives and friends of Hon. Thomas Harvey Haile. As the custom has been for years, Mrs. J. F. Flowers, the daughter of Mr. Haile with whom he lives kept open house all day for him. A constant stream of callers kept coming and going throughout the day, shaking hands with Mr. Haile and congratulating him on the fact that he has been preserved so well and so long, Sunday being his 94th birthday. He received them graciously and with becoming dignity and cordiality, inviting them to come often as he is shut in and unable to get out. Mr. Haile finds great pleasure in meeting his long time many friends. Ninety four years is a long time. There is no question but that Mr. Haile is the oldest man in Farmington and most likely in St. Francois county. The Times extends hearty congratulations to him that in the providence of the Allwise Father he has been kept, and trusts that many more years may be given him in health and happiness to linger here with friends and relatives.
